Personal Profile:

I am a recent BSc Computer Science graduate from England, who has moved to Denmark to pursue a career in the fields of software and computer systems engineering.

I often use my in-depth knowledge of computers and electronics to create personal projects ranging from software, websites, games, security testing and microcontrollers.

I am fluent in Java, C, C++, Python, C#, Unity3D, PHP, HTML, CSS, Javascript & SQL . As well as having a broad understanding of many other programming languages, software engineering skills and methodologies. I find it easy to pick up new programming languages and skills as I am always expanding my knowledge by teaching myself.

In my most recent occupation, where I worked as a Bar Team Leader I have further developed my interpersonal skills with both colleagues and customers, leading a team of up to 5 bar staff by keeping them motivated and ensuring they maintain high standards, whilst using their own initiative and working as a single unit through good communication and collaboration.

Education:

(Sep 2013 – July 2017)   **University of Southampton** - BSc. (Hons) Computer Science
Academic Focus:
   - ❖ *Notable Modules*: Engineering Management & Law, Software Engineering Group Project, Data Management, Computer Systems 1–2, Programming 1–5 and Digital Systems.
   - ❖ Whilst undertaking numerous group projects, using agile development methodologies. I vastly improved my leadership skills and ability as a team player. Where we would distribute work evenly based on our individual strengths and work towards a common goal, which we would often exceed.
   - ❖ I refer you to my portfolio for project details and a breakdown of modules & grades.

(2018 - Present)   **Lærdansk Aarhus** - Danish
Personal Goals:
   - ❖ Write and communicate via emails, letters and similar messages.
   - ❖ Read and understand Danish.
   - ❖ Participate in conversations about current and relevant topics.
   - ❖ Expand my vocabulary and improve my pronunciation.

Professional Experience:

(Aug 2017 – May 2018)   **Bar Team Leader** - The George Inn (J D Wetherspoons)
Key Results:
   - ❖ Improved customer service & assistance.

- ❖ Further development of my interpersonal & management skills.
- ❖ Learning the key aspects of stock & team management.
- ❖ Successfully following the process of customer enquiry through to point of sale.

(Nov 2016 – Aug 2017) **Office Assistant** - W D Long. Angmering, England

Key Results:
- ❖ Formal correspondence with clients and associates through email.
- ❖ Responding to and resolving customer queries in person.
- ❖ Invoicing, using Microsoft Office (Excel and Word).

(Jan 2016 – Sep 2016) **E-Commerce Website Developer** - Muslim Box Co. England

Key Results:
- ❖ Setup, design, building and maintenance of an E-Commerce website using the Shopify framework.
- ❖ Formal correspondence regarding website design choices and work undertaken.

Volunteer Experience:

(April 2019 - Present) **Repair Advisor** - Repair Cafe Aarhus

Key Responsibilities:
- ❖ Interpreting client enquiries regarding the device, issue(s) and causation event.
- ❖ Troubleshooting to identify the cause of the issue, based on client's information.
- ❖ Repair of laptops, phones & electronic devices following an appropriate plan of action.
- ❖ Verify full functionality of the device upon completion of work.

(Sept 2014 – May 2016) **President** - Southampton University Paintball & Airsoft Society

Key Results:
- ❖ Organised and participated in team training sessions, which helped make us the best student competitive paintball team in the country.
- ❖ Attributed to our communication skills, hard work and dedication.

IT Skills:

- ❖ Agile Development
- ❖ Software Engineering
- ❖ Website Development
- ❖ Software Design
- ❖ Project Management
- ❖ Digital Electronics
- ❖ Programming
- ❖ Computer Systems
- ❖ Algorithmics
- ❖ Data Processing
- ❖ Version Control
- ❖ Games Development

Languages:

- ❖ English (Native)
- ❖ Danish (Upper Intermediate - *CEFR B2*)

Leisure and Interests:

My personal interests and pastimes include:
Programming (from a young age, since 2007), cyber security (CTF events), electronics prototyping, electronics & computer repair, sailing, competitive paintball, competitive gaming, learning new skills and reading.
